 cinas

DESIGN IS
NOT JUST LOOKS.

DESIGN IS HOW
IT WORKS.

OUR STORY

Cinas was founded in 1895 under the name Carl J. Nielsen.

What began as a small Danish company has grown into the design, import, and distribution brand we know today.

For generations, we have collaborated with carefully selected manufacturers in the Far East - partnerships built on trust, craftsmanship, and shared values.

Together, we ensure that every Cinas product meets our high standards for quality, finish, and durability.

Our design philosophy is rooted in simplicity and function, yet always with a refined sense of style.

We create furniture and accessories made to be used, lived with, and loved - timeless pieces that bring comfort and character to everyday life.

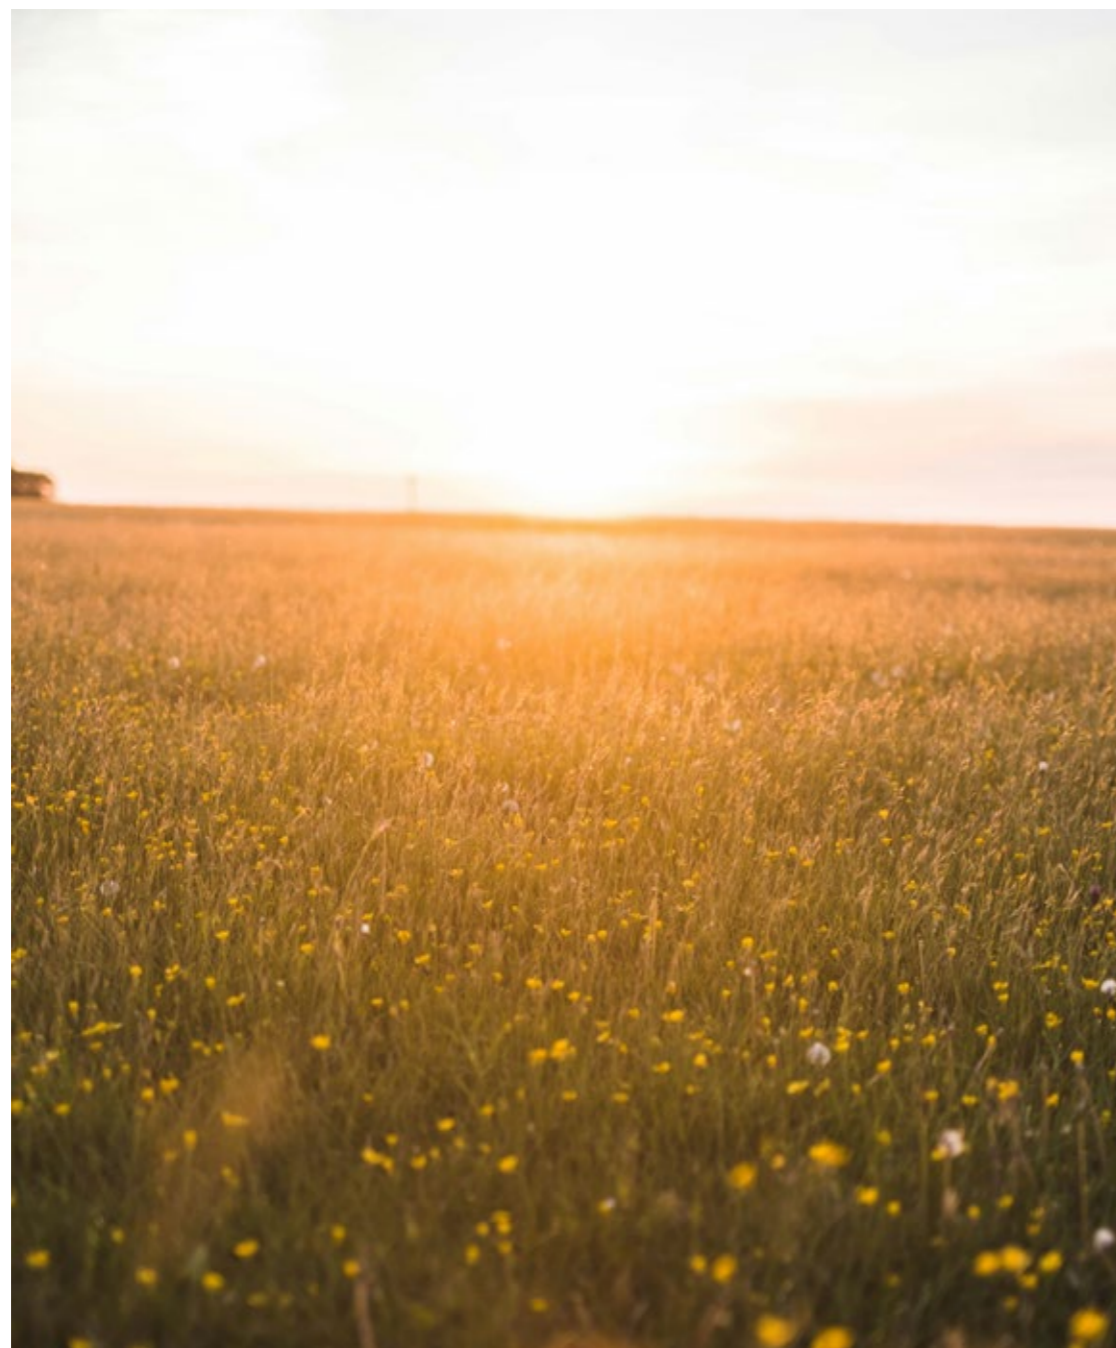

"A design is incomplete until someone uses it."

OUTDOOR

We draw inspiration from Scandinavian and Nordic design traditions. Our outdoor collections combine timeless aesthetics with functionality, adding beauty and comfort to homes and gardens.

Manufactured using quality materials, our furniture is designed with longevity in mind. Designed for long life- and everyday use.

MOOD SQUARE

A modern and versatile series that brings together sturdy aluminium frames with teak slats in a clean, graphic expression - creating timeless outdoor pieces with a warm Nordic feel.

ROSENBORG

A classic teak series inspired by traditional garden architecture and historic park settings. With soft curves and timeless detailing, Rosenborg brings a calm, elegant presence to terraces, courtyards and leafy outdoor spaces.

SOFIERO

A generous and calm series with wide slats, clean lines and a harmonious silhouette. Available in natural teak or white-painted finishes, Sofiero creates a warm and timeless focal point in both modern and classic outdoor settings.

BRIGHTON

A classic green bench series inspired by traditional English park design. With deep colour tones, gentle curves and timeless detailing, Brighton adds charm, character and a calm, inviting presence to gardens, courtyards and pathways.

BUTTERFLY & YORK

Butterfly and York are designed for flexible, space-conscious outdoor living. Both series share a light expression and compact proportions, making them ideal for balconies, terraces, and smaller garden settings.

Butterfly features folding tables in teak or painted mahogany, offering a practical and elegant solution for adaptable outdoor spaces. York complements this with a warm teak series defined by clean lines and thoughtful details, creating a timeless and inviting outdoor atmosphere.

Together, the two collections offer versatile solutions where functionality and refined design meet.

Leather patches & aluminium L-clips

OUR MATERIALS

TEAKWOOD

We use Java teakwood to manufacture our furniture. Among the other hardwoods commonly used for outdoor furniture, many are referred to as 'teak substitutes'. But there is no substitute for teak, and in outdoor conditions, no other hardwood in the world performs to the same high quality standards as teak.

Simply put, teak is the best hardwood in the world for untreated wooden outdoor furniture.

VIRO ROPE

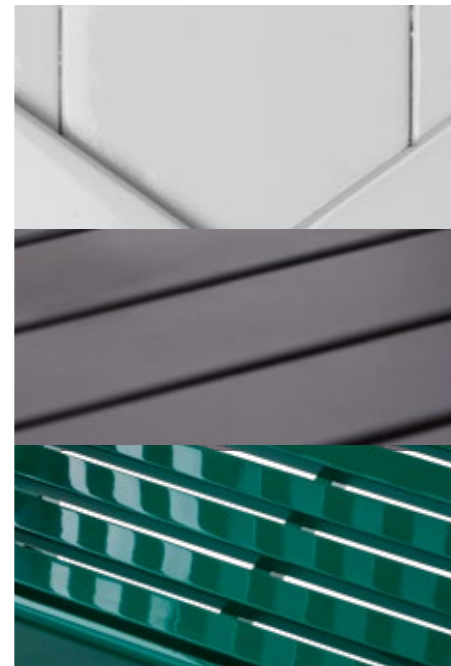

Viro Rope is highly resistant to weather, UV rays, and extreme temperatures, making it ideal for outdoor use. It requires minimal maintenance and is easy to clean with mild soap and water.

Viro retains its appearance over time without fading or cracking.

MAHOGANY

With glossy green, white or matte black PU-paint

With its balanced natural oil content, mahogany has proved itself over time as the best material for painted outdoor furniture. Prior to assembly, we apply several layers of paint to each component to ensure optimal protection and outdoor resistance.

This strong smooth painted surface highlights the knowing modern lines of each piece of Cinas furniture.

ALUMINIUM

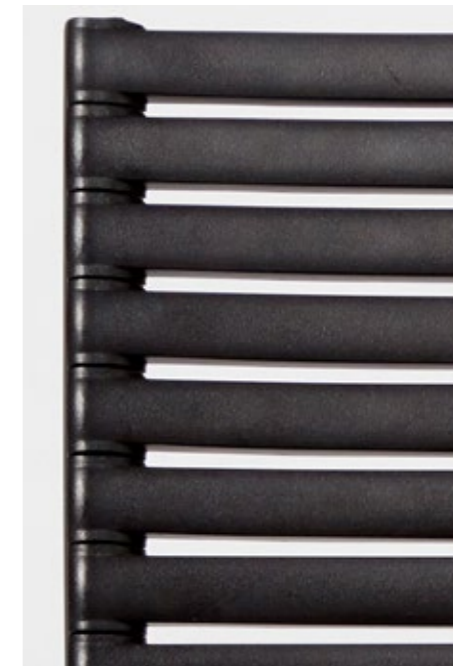

Our powder-coated aluminum furniture is rustproof, easy to clean, and requires only minimum maintenance. All Cinas aluminum frames are offered in our classical 'glossy powder coating', matt anthracite, white or sandy grey powder coating'.

Combine various types of tables, seating types and cushions to create a selection for your every mood and preference.

T-GRIP

Innovative system that enables us to produce chairs without tools, screws, or glue.

Our flexible U-shaped polypropylene lamellas feature our own unique T-shaped grip system for easy insertion in a rail inside an aluminum frame.

TEXTILE

Our garden umbrellas are water-repellent and treated for UV+50 resistance. Poles are available in teak color hardwood and aluminium, with several size options to suit a variety of applications. The hub and runner are made of strong polyresin, and fittings have a satin finish. The umbrella fabric is reinforced with double stitching, and leather patches enhance the strength of the corner pockets.

Choose covers to suit your market: Standard Polyester (235gr/m2) or Olefin (210gr/m2). Umbrella bases in concrete (including wheels) are available with the patented tube.
